7 SHARE CAPITAL (SUBSCRIBED CAPITAL) OF THE COMPANY

7.1 Value of the Share Capital

The share capital of the Company is HUF 1,449,875,700, that is one billion four hundred forty-nine million eight hundred seventy-five thousand seven hundred Hungarian Forint.

The share capital of the Company consists of 14,794,650 pieces, that is fourteen million seven hundred and ninety-four thousand six hundred and fifty "A" series registered common shares, each having a nominal value of HUF 98, that is ninety-eight Hungarian Forint.

7.2 Contributing the share capital

With the exception of the founders providing contributions in kind, subscribers (undertaking to receive the shares) shall pay upon subscription (by providing the declaration on receiving the shares) at least ten per cent. of the amount subscribed (undertaken to be received), in the manner determined by the founders, under the condition that if the issue value of the shares exceeds the nominal value, the full amount of the difference shall be paid at the time of the subscription and the part of the difference which is provided as a contribution in kind shall be made available to the Company.

The increase of the share capital may only be registered with the Court of Registration if, prior to the submission of the application for registration,

- (a) in case of contributions in cash, at least thirty per cent. of the issue value of the shares undertaken to be received have been paid;
- (b) the contributions in kind have been made available to the Company, unless the value of the contributions in kind do not reach twenty-five per cent. of the share capital, as in such case, in accordance with the resolution on the increase of share capital, the contributions in kind shall be provided no later than by the end of the fifth year following the registration.

Shareholders shall be obliged to pay the full amount of the issue value of the shares within a period of one year following the registration of the share capital increase. Shareholders shall be obliged to pay the amount of the issue value of the shares – within a period of one year – when they are notified by the Board of Directors according to the conditions as set out in the resolution on the increase of share capital by the published announcement in accordance with the provisions of the Statutes of the Company on the publications of announcements. If a shareholder fails to provide his contribution undertaken in the Statutes by the deadline set forth therein, the Board of Directors shall give notice to such shareholder to provide the contribution within a period of thirty days. Such notification shall also refer to the fact that a failure to perform will result in the termination of membership. In the event that the period of thirty days elapses without performance, the membership shall be terminated on the day following the expiration of such period. The Board of Directors shall inform the shareholder thereof in writing. The shareholder whose membership has been terminated accordingly shall be liable in accordance with the general rules of civil law for damages caused to the Company by virtue of his failure to provide the contribution. If shareholders' rights of a shareholder are terminated accordingly, and his obligation to provide the contribution for the shares subscribed (undertaken to be received) is not assumed by another person, the share capital must be reduced consistent with the contribution undertaken by such shareholder in default. The value of the contribution provided by the shareholder in default shall be due to the shareholder following the reduction of the share capital, or when the shareholder replacing the shareholder in default performs his contribution towards the Company.

8 SHARES AND RIGHTS ATTACHED TO THE SHARES

8.1 Categories of shares

"A" series shares: 14,794,650 pieces of dematerialized registered common shares each having a nominal value of HUF 98.

8.2 Dematerialized shares

The registered common shares of the Company (hereinafter together referred to as shares) are dematerialized shares. Dematerialized securities shall mean an electronic instrument identifiably containing all material information of securities, which are issued, recorded, transmitted and registered electronically pursuant to the Act on Capital Markets and other specific legislation; dematerialized securities are registered instruments with no serial number, where the name and other identification information of the holder is contained in the register kept on behalf of the holder of the securities, i.e. the securities account. The Company shall issue a single written instrument which does not qualify as a security, and deposit same in the central depository, and simultaneously shall mandate the central depository to produce the security. The dematerialized shares shall be issued with the same content and meet the same formal requirements as printed shares, with the deviation that the serial number of the share need not be indicated, and the signatures of two members of the Board of Directors shall, in accordance with the statutory provisions on securities, be indicated on the instrument issued by the issuer and placed in the central depository. In lieu of such signatures, dematerialized shares shall contain the names of the authorized signatories of the document.

Dematerialized shares may only be registered shares. Securities issued as part of a series may be issued only in registered form. Only registered and dematerialized securities may be offered to the public. Within one category or one class of shares, several series of shares may be issued. Shares of the same type, content and representing the same membership rights qualify as one series of shares. Shares of the same series may not differ in their nominal value or method of production. The securities account of an owner of securities shall be kept by the investment service provider. The securities account shall be opened pursuant to a securities account agreement.

If the General Meeting of the Company passes a resolution on the transformation of any category of shares, the Board of Directors, at the cost of the Company, shall provide, in compliance with the legal rules and the regulations of the central depository, for the invalidation of the instrument issued previously relating to the dematerialized shares but which does not qualify as a security, the issuance of a new instrument and the registration of the transformed shares on the securities accounts.

On the basis of a securities account agreement, the securities account keeper undertakes to record and administer the securities in the ownership of the other contracting party (account holder) on the securities account opened with the securities account keeper, to execute the account holder's proper instructions and to inform the account holder about the crediting and debiting of the account as well as the balance of the account. The account holder may terminate the securities account agreement at any time without any time-limit; however, such termination shall only be valid if the account holder simultaneously indicates another securities account keeper, except if the account has been depleted. The depletion of the securities account does not terminate the securities account agreement. The securities account may be controlled by the account holder, or by a person duly authorized by the account holder. A power of attorney shall only have effect vis-à-vis the securities account keeper if same has been provided to it in writing, in the form and with the content stipulated in the securities account keeper's business regula-

tions. Control of jointly owned securities recorded on a security account shall be exercised by the owners jointly, or by a common representative elected by the owners and notified to the securities account keeper. Control of a securities account the holder of which is subject to bankruptcy or liquidation, or is under voluntary dissolution, can only be exercised by the bankruptcy trustee, the receiver or the liquidator, as the case may be. Following the publication of the bankruptcy, liquidation or voluntary dissolution proceedings in the official journal, the securities account keeper shall only accept instructions from such persons. The account holder shall provide notice of the name of the bankruptcy trustee, the receiver or the liquidator to the securities account keeper within three days from the date of appointment. The signature specimen of authorized signatories shall be supplied to the securities account keeper in the manner set forth in the securities account keeper's business regulations.

The securities account keeper shall transfer all securities to a blocked subsidiary securities account, which are under attachment due to an encumbrance arising from third party's rights by virtue of law, court order, administrative measure or contract, or if so instructed by the account holder. The blocked subsidiary account shall indicate the legal title giving rise to the attachment, such as bail, pledge, court deposit, action of replevin (claim of exemption), judicial execution, as well as the person named as the beneficiary. The attachment of securities held in a subsidiary account may be cancelled, or another attachment may be implemented only if the fact underlying the attachment is eliminated and it is declared and so notified by the appropriate person. In this case, the securities account keeper shall immediately transfer back the securities in question to the securities account. If the account holder is permitted to alienate any securities subject to an attachment, the securities account keeper shall transfer such securities, with an indication of the attachment, to the blocked subsidiary account of the new owner of the securities opened under this new owner's securities account.

8.3 Rights of the shareholders

Shareholders shall be entitled to receive a share from the profit to be distributed by the General Meeting in proportion to the nominal value of their shares (rights to dividend).

In the event of the termination of the Company without legal successor, the assets remaining after the settlement of all debts shall be distributed among the shareholders in proportion to the nominal value of their shares in the share capital of the Company (rights to the liquidation proportion). All shareholders shall be entitled to participate at the General Meeting, to request information, to comment on the issues and make proposals. Shareholders having voting rights are entitled to cast a vote.

8.4 Court review of resolutions

Any shareholder of the Company may request a court to review the resolutions passed by the organs of the Company by referring to the fact that such resolution conflicts with the provisions of the Companies Act, other legal regulations or the Statutes. Any member of the Board of Directors or the Supervisory Board may also initiate a court review of a resolution passed by the General Meeting.

The claim for a court review of a resolution violating the law must be lodged against the Company within 30 days after learning of such resolution. Following the expiration of a 90-day non-appealable-deadline from the date of passing the resolution, the resolution may not be contested even if it has not been communicated to the person entitled to lodge a claim or he has not learned thereof. The right to lodge claims shall not be granted to the persons who voted in favour of the resolution, provided that the person's affirmative vote was not procured by mistake, fraud, or unlawful threat.

9 TRANSFER OF SHARES, REGISTER OF SHAREHOLDERS

9.1 Shareholders of the Company

The register of shareholders kept by the Board of Directors of the Company – as set forth by Section 9.5 – contains the name (corporate name) and domicile (registered seat) of the shareholders of the Company having registered shares.

9.2 Transfer of shares

The acquisition or sale of dematerialized shares may only be carried out via charging or debiting the securities account. Until proved otherwise, the person shall be recognized as the shareholder of the securities whose account bears the securities.

The transfer of registered and interim shares shall be valid in respect of the Company if the name of the new shareholder has been entered into the Register of Shareholders.

9.3 Acquisition of treasury shares

The Company shall not be entitled to subscribe for (receive) shares of their own issue (hereinafter: the treasury shares).

Unless otherwise prescribed by law, the Company may acquire its treasury shares if the Board of Directors is so authorized by a resolution of the General Meeting adopted by a simple majority vote. The resolution of the General Meeting shall specify the purpose for obtaining the treasury shares and the terms and conditions under which they are to be acquired, it shall expressly specify the type (class) of shares to which the authorization pertains and any limitations as to the number of shares or the percentage of the share capital to be covered by such shares, the duration of the authorization, which is not to exceed eighteen months from the date on which the General Meeting adopts the resolution, and the minimum and maximum price to be paid for a share if the shares are to be acquired for consideration.

The Company may only acquire those shares for which a shareholder has paid the nominal value or issue price in full and if the same shareholder has provided his contribution in kind to the Company.

Treasury shares may not be acquired if the Company is not authorized to distribute dividends. The annual report and the interim balance sheet may be taken into consideration for allocating funds for covering the acquisition of treasury shares within the six-month period following the balance sheet date.

A public company limited by shares attempting to acquire its treasury shares by ways other than via the stock exchange must make a public purchase offer.

The prior authorization of the General Meeting is not required for the acquisition of treasury shares if it is necessary to prevent an imminent injury to which the Company is directly exposed or if it takes place in the frame of litigant or non-litigant judicial proceedings which are aimed at settling a claim entitled to the Company. In such case, the Board of Directors shall present at the next General Meeting, the reasons for which the treasury shares had to be acquired, the quantity and aggregate nominal value of the shares, the percentage they represent in the Company's share capital and also the price paid for the shares.

A public company limited by shares attempting to alienate their treasury shares through means other than the stock exchange must make a public selling offer. No public selling offer is required if the Company intends to alienate its treasury shares as part of a program to provide shares to employees and executive officers.

Treasury shares acquired by the Company shall not grant voting rights and shall not count for the purposes of a quorum or in connection with pre-emptive subscription rights. Any dividend that is payable on the Company's treasury shares shall be taken into account the same way as pertaining to the shareholders with respect to the dividends payable on their shares.

The provisions on the acquisition of treasury shares shall apply in cases where the shares of a Company are acquired by a domestic or foreign company limited by shares or limited liability company in which the Company controls – directly or indirectly – over fifty per cent of the voting rights or in which it has a dominant influence.

9.4 Recording in the Register of Shareholders

The Board of Directors of the Company keeps record of the shareholders of registered shares including the holders of interim shares in the Register of Shareholders. The Board of Directors may mandate clearing houses, investment enterprises or credit institutions to keep the Register of Shareholders. The mandate shall be announced by means set out in section 21.3 of the Statutes of the Company in the Company Gazette (Céggazló). The Register of Shareholders keeps a record of the name (corporate name) and domicile (registered seat) of the shareholders or shareholders' representatives (hereinafter jointly referred to as: the "shareholders"), or in case of jointly owned shares, that of the joint representative, furthermore, the number of shares or interim shares (ownership ratio) of shareholders per each series of shares, as well as any other data set forth by law, provided that the securities account holder reports same to the keeper of the Register of Shareholder. The Register of Shareholders may also be kept electronically.

Shareholders may inspect the Register of Shareholders, and may request a copy of the section thereof concerning themselves from the Board of Directors or the party commissioned by it. Third Parties may inspect the Register of Shareholders if their interest is rendered probable in conformity with the legal provisions on personal rights and data protection. The Company shall provide the first copy requested accordingly free of charge and the following copies at the cost of the requestor.

The securities account keeper, unless otherwise instructed by the shareholder (which may be set out in the agreement concluded with the securities account keeper or in the general terms and conditions or in the business regulations of the securities account keeper) and with the exception of the agreement on the shareholder's representation, shall, in accordance with the Act on Capital Markets, disclose to the administrator of the Register of Shareholder the shareholder's name (corporate name), address (registered office), the quantity of shares held by the shareholder according to categories and series, as well as any other information prescribed by law within five days from the date when the respective shares are credited to the securities account.

If a shareholder intends to exercise the shareholder's rights personally, the securities account keeper shall issue an ownership certificate in respect of the dematerialized securities. The ownership certificate shall indicate the name of the issuer and the category of the shares, the quantity of shares, the name of the securities account keeper and its authorized signature and the name (corporate name) and address (registered seat) of the shareholder. An ownership certificate issued in order to permit its holder to attend the General Meeting of the Company shall remain valid until the date of the General Meeting, the repeated General Meeting or at the latest, until the last day of closure. After an ownership certificate is issued, no changes shall be made in the securities account concerning the shares to which it pertains, except if the ownership certificate is withdrawn at the same time. The securities account keeper shall notify the Company prior to the General Meeting (or the repeated General Meeting) in writing or in the form of an

electronic document executed by a qualified electronic signature with respect to the ownership certificates issued in order to permit its holder to attend the General Meeting.

A shareholder may not exercise shareholders' rights (including in particular, but not exclusively the rights to cast votes or to dividends) with respect to the Company if the shareholder (i) acquired or owns share(s) in conflict with the legal provisions in force or failed to satisfy the obligation of reporting and publishing which exists due to an acquisition of interest, or (ii) owns registered shares and its ownership has not been registered in the Register of Shareholders of the Company or was deleted following registration. If the Board of Directors deletes the shareholder from the Register of Shareholders due to the lack of certificates or inappropriate issue of certificates, then the resolution of the General Meeting, passed with the vote of such shareholder, shall remain valid only if the majority requirements necessary for passing such resolution would have been met without the vote of the deleted shareholder.

Shareholders, if previously registered with the Register of Shareholders, shall report the transfer of their shares within eight days following such transfer to the Company. On the basis of such report, the keeper of the Register of Shareholders shall provide for the deletion of the shareholder from the Register of Shareholders without any delay. The deleted data, however, shall remain viewable.

9.5 Announcement of the acquisition of interest, report to the Company – Thresholds

9.5.1

Any person, and in particular any private individual, company, firm, association, organization, foundation, agency, municipality or other organized entity – whether it is regarded as a separate legal entity or not – (hereinafter referred to as a “person”) that acquires, either directly or indirectly, an influence of 5% (five percent) in the Company must report such acquisition to the Company and the Hungarian Financial Supervisory Authority (HFSA) and at the same time take steps for the public announcement of such acquisition. Any further acquisition of influence (including the acquisition of influence through any deposit system) as a result of which a person's total influence in the Company reaches 5% (five percent) or a multiple thereof must be similarly reported and announced until an influence of 50% is reached. After a person has acquired an influence of 50%, the reporting and announcement obligations will apply upon the acquisition of a total influence of 75% (seventy-five percent), 80% (eighty percent), 85% (eighty-five percent) and 90% (ninety percent), and upon each additional one-percent increase in influence thereafter. The same rule will apply to the reporting and announcement of a decrease in influence.

Reporting and announcement obligations will also apply to any agreement under which influence will only increase or decrease at a later date or upon the fulfilment of a condition set forth in such agreement.

The report must contain the names of the persons affected by the change in influence or the persons acting in concert, their registered office (address) and company registration number, the extent of influence acquired, the description of the relationship among the persons acting in concert, and the date of the acquisition of, or decrease in, influence.

9.5.2

For the purposes of Sections 9.6 and 9.7 hereof, the term “acquisition of influence” is defined to mean the acquisition of voting rights that entitle the holder to participate in decision-making at the Company's general meeting, including the exercise or enforcement of any purchase option, repurchase option or forward purchase agreement for the shares representing such voting rights, or the exercise of such voting rights on the basis of any use right or usufruct as well as any instance where the influence does not arise from any conduct of the acquirer directly aimed at the acquisition thereof but from any other circumstance, including, in particular, inheritance, succession, any resolution by the Company affecting the shareholders' voting rights or modify-

ing the distribution of votes among them, or the revival of voting rights, or is the result of cooperation among persons acting in concert for this purpose.

Furthermore, “acquisition of influence” is defined to include any agreement between a shareholder and any other shareholder in the Company whereby a) such shareholder will be entitled to elect and/or recall the majority of the Company’s senior officers or supervisory board members, or b) the parties agree to control the Company in coordination. In determining whether influence has been acquired and calculating the extent thereof, all direct and indirect influence, plus the influence of persons acting in concert and that of close relatives must be added together.

9.5.3

The Supervision and the Board of Directors must be notified within 2 (two) calendar days following the acquisition. The notification must contain the statement of the notifying person’s representative entitled to provide declarations that the information contained in the notification and its annexes are true, correct and exhaustive.

9.5.4

The person having interest shall report to the Supervision if its interest in the Company has dropped to the threshold set out in Section 9.6.1.

9.5.5

Any acquisition of interest in excess of 33% (thirty-three per cent.) shall be subject to a public purchase offer set out in Section 9.7 which is to be approved by the Supervision in advance. If there is no shareholder in the Company, other than the Bidder, holding more than ten per cent. of the voting rights, whether directly or indirectly, a purchase offer must be submitted if the degree of interest to be acquired exceeds 25% (twenty-five per cent.) already.

9.5.6

If the shareholder’s acquisition of interest exceeds the threshold set out in Section 9.6.1, the shareholder may exercise its membership rights (including, in particular but not exclusively, the shares originating from convertible securities) only if he/she has notified the Board of Directors and the Supervision of being in excess of the threshold and he/she has published the acquisition of interest.

9.6 Public Offer

9.6.1

Any person ("Bidder") who is entitled to, or in cases referred to in Section 9.6.5 of the Statutes, makes a public offer to the shareholders on the shares of the Company, such bid can be regarded as valid offer if same pertains to all shareholder having voting rights and all shares of the Company granting voting rights; the provision on the minimum quantitative criteria shall not apply in the case of a voluntary purchase offer. No voluntary purchase offer may be submitted after the publication of a statutory purchase offer and before the last day of the period within which the Statement of Acceptance is to be introduced. If a proceeding is pending before the Court of Registration with respect to the registration of the increase of the share capital of the Company, such offer may only be made 30 days after the Company receives the final and binding decision on registration.

9.6.2

The Bidder must disclose its bid to the Company's Board of Directors and also submit it in writing to the HFSA for approval, and take steps immediately for the public announcement of such bid. A licensed investment service provider must be engaged to carry out the acquisition of influence through a public bid. The public bid must be prepared in both Hungarian and English and contain the following data and information:

- a) the Bidder's (company) name and address (registered office);
- b) the extent of direct or indirect influence, and the number and series of shares held by the Bidder, all the parties involved in the agreement of the persons acting in concert, and any close relative of the Bidder with an influence in the Company;

9.6.4

- a) the volume-weighted average price of the shares on the stock exchange in the one hundred and eighty days preceding the submission of the bid to the HFSA;
- b) the highest price specified in any agreement entered into by the Bidder and its associated persons for the transfer of the Company's shares for a consideration in the one hundred and eighty days preceding the submission of the bid;

With the exception of voluntary public bids, the Board of Directors must evaluate the bid in accordance with the Capital Market Act, and make it available to the shareholders, prior to the first day of the period allowed for Statements of Acceptance to be made, at the place where the operating plan and the report on the Bidder's business activities may be inspected. In the case defined in the Capital Market Act the Board of Directors must engage an independent financial advisor to evaluate the bid at the Company's expense. The Board of Directors must send the bid to the representative of the employees immediately upon receipt.

9.6.6

The period allowed for Statements of Acceptance to be made cannot start before the second day following the announcement of the bid upon the completion of the HFSA procedure or after the fifth day following such announcement. Upon reasonable request the HFSA may extend the deadline set in the bid for Statements of Acceptance to be made once, by not more than fifteen days.

9.6.8

The Bidder may modify the bid price quoted in the purchase offer until the last day of the period stipulated for acceptance on the condition that the new price expressed in Forint is higher than the price quoted in the purchase offer and that the Bidder has published same. The new price also applies to Statements of Acceptance made before the publication of the modification. 9.6.11

A share transfer agreement between the Bidder and a shareholder who has filed a Statement of Acceptance shall become effective on the last day of the period within which the Statement of Acceptance is to be made, unless there is a competition proceeding pending on this day. In

such case, the agreement shall become effective on the day when the competition board's authorization is granted.

9.6.12

The Bidder shall settle the payment within five business days following the last day of the period within which the Statement of Acceptance is to be made, or following the day when the competition board's authorization is granted in conclusion of a competition proceeding. If the payment is settled thereafter, the Bidder shall be liable to pay a default penalty. If the payment is not effected within thirty days following the deadline, the person filing the Statement of Acceptance may cancel the agreement.

9.6.13

The Bidder or the investment service provider shall notify the Supervision concerning the outcome of the purchase offer within two calendar days following the last day of the period within which the Statement of Acceptance is to be made and shall simultaneously publish it in accordance with the regulations on the publication of purchase offers.

9.6.14

If the Bidder acquires more than 90% (ninety percent) of the voting rights as a consequence of its bid, and performs its obligation to pay the consideration thereof in full, the Bidder will have a purchase option for any and all shares not yet in its ownership for 30 (thirty) days following the announcement of the result of its bid. The consideration paid during the exercise of such purchase option may not be less than the consideration applied in the bid or the Company's equity per share, whichever is greater. Equity per share must be determined on the basis of the most recent audited annual financial statements.

9.6.15

If the Bidder's interest in the Company exceeds ninety per cent. of the voting rights when closing out the purchase offer, the Bidder must purchase the remaining shares if so requested by the owners of these shares within thirty days following the day on which the result of purchase offer is notified to the Supervision and announced. Transfer of shares before the starting day of the General Meeting does not exclude the right of the person registered in the Register of Shareholders to take part at the General Meeting and exercise his rights due to him as a shareholder.

Shareholders may exercise their shareholders rights through representatives. The representative shall vote according to the authoritative shareholder's instructions, otherwise the vote is invalid. Members of the Board of Directors, and the General Manager, the members of the Supervisory Board, senior officers and relevant officials of the public company limited by shares and the auditor may not be representatives, except when these persons, as proxies, were given definite written voting instructions by the authoritative shareholder for each resolution proposal. One representative may represent several shareholders, but one shareholder may have only one representative, except when the shareholder has shares kept on several securities accounts. In this case the shareholder may authorize individual representative regarding the shares kept on the individual securities accounts, but different votes cannot be given regarding shares belonging to the same shareholder. If different votes were given regarding shares belonging to the same shareholder, each of these votes is invalid. Authorizations for representation may be valid for one General Meeting or a definite period of time, but for a period of twelve months at the most. The validity of authorizations of representation shall extend to the continuation of suspended General Meetings and to General Meetings re-convened due to a lack of quorum. Authorizations shall be submitted to the Company in the form of a notarial document or private document representing conclusive evidence.

11.2 Number of votes

Each registered share entitles to as many votes as its face value is divisible by HUF ninety-eight. Shareholders may not exercise their voting rights until they provide contributions in cash which are due.

11.3 Voting

In the event the voting takes place by way of a voting sheet, the Board of Directors shall provide voting sheet(s) to the shareholders holding voting rights (or their representatives).

On the voting sheet at least:

- the series of shares;
- the name of the shareholder; and
- the number of the votes

shall be indicated.

In order to pass a valid resolution, given votes may be taken into account and only in case the "yes", "no" or "abstention" (but among these only one of them) can clearly be established on the basis of the voting sheet or the holding up of same. The "abstention" is considered as a given vote. With respect to voting for the proposals, only "yes" votes may be taken into account.

At the General Meeting, voting takes place by holding up the voting sheets or submitting same to the counters of votes. The Board of Directors may establish another method of counting the votes (such as counting the votes by computer). In case of utilizing another method of voting, the recording of the above information shall appropriately be assured.

For the purpose of counting the votes, a committee consisting of three counters shall be elected at the beginning of the General Meeting. The Chairman of the General Meeting shall make a proposal regarding the members of the countering committee but the Chairman of the General Meeting may not be elected into the countering committee.
